Twin Tier Solar and Wind Active in Local Community Elmira-based Company Touts Benefits of Renewable Energy to Local Organizations

ELMIRA HEIGHTS, NEW YORK – January 8, 2015 - Twin Tier Solar and Wind, a full service solar and wind energy company, headquartered in Elmira Heights, New York announced today that it has been delivering presentations to local organizations on the benefits of renewable energy.

Twin Tier Solar and Wind LLC was created in 2009 to meet the rapidly growing demands for alternative energy products in the Twin Tier region of New York state. The company has expertise in design, procurement, installation and service of Photovoltaic(PV), solar energy solutions, as well as small wind solutions.

Twin Tier Solar and Wind has recently delivered presentations to several groups in the Southern Tier, one of which was the Tanglewood Nature Center and Museum.

"Twin Tier Solar and Wind aspires to be a good and caring citizen of our planet," said Lindsay Mills, president of Twin Tier Solar and Wind. "We want to keep the planet, as well as our community environmentally healthy. Many people really just aren't aware of the benefits of solar energy. They generally know what it is, but they don't realize how much of a positive difference just one residential solar system can make. And, how affordable solar is these days given the rebates and tax incentives. This is why we're out in the community spreading the word. "

While at Tanglewood Nature Center, Twin Tier also announced a promotion that benefits the patrons of the center, as well as the center itself.

Twin Tier Solar and Wind is a wholly owned subsidiary of John Mills Electric, the Southern Tier's oldest electrical contractor, serving the area since 1946. The company is also a proud member of the North American Board of Certified Energy Practitioners, NABCEP CERTIFICATION #032611-87. Twin Tier installers are factory certified and all of their solar installations are supervised by in-house NABCEP certified personnel.

About Twin Tier Solar and Wind

For individuals and businesses wanting to save money on their energy bills, and at the same time recapture some of their federal and state income taxes, Twin Tier Solar and Wind provides the comprehensive alternative energy solutions that you are looking for.

Twin Tier constantly seeks out the best and latest solar and small wind technologies and provides them to customers at a competitive and affordable price.

Unlike other alternative energy companies, Twin Tier uses only high quality products, installed by our own professionally trained technicians, ensuring that our customers get the very best product possible.
